Dear Ladies and Gentlemen,

we would like to invite you to the **10th year of the international scientific council ICTEP**, which traditionally continues the previous successful years organized by the partner organizations Faculty of Mechanical Engineering of Technical University of Košice and Óbuda University of Budapest. These events have become a place of mutual exchange of views, experiences and new scientific knowledge of experts dealing with environmental, technical, economic and legislative aspects of environmental protection. The main focus of the ICTEP 2019 anniversary year will be "Technology of Environmental Protection".

A friendly atmosphere, a high level of professionalism and off-site meetings and conversations in the social part of the council will be beneficial for every council participant. Active participation is possible in the form of scientific and professional lectures as well as by exhibiting and presenting companies. We believe that an attractive council venue in the High Tatras will contribute to the warm atmosphere.

Council Venue and Accommodation

High Tatras - Vysoké Tatry, an area whose natural beauty makes it one of the most remarkable recreation areas not only in Slovakia but in all of Europe. Among other things, the High Tatras offer exceptionally clean air and a unique climate, leaving every visitor feeling better, especially those who take advantage of the many health spa treatments available. Hiking paths, ranging from gentle to highly demanding, wind among spectacular peaks and rock walls.

Grand Hotel Starý Smokovec, has been writing its long history in the heart of the High Tatras under Mt. Slavkovský štít since 1904. This first big hotel in the Tatras has been visited by various eminent personalities – Saxon prince Friedrich August, Czechoslovak president Eduard Beneš, British prime minister Harold Wilson, Fidel Castro and many others. In spite of disturbed times and two world wars, Grandhotel **** has remained an inseparable part of Starý Smokovec and its atmosphere.

Accommodation is not covered by registration fee and participants are fully responsible for making their own accommodation arrangements!
